

The Women's Auxiliary of the Ahmadiyya Muslim Association Langwarrin is organising an event to bring women of all faiths including parliamentarians and the civics, together to engage in a meaningful dialogue and infuse mutual understanding between their beliefs.

Upbringing of children: how my faith helps!

It is apparent that children of today's society have been granted access to various fundamental commodities. Yet, their upbringing is of most importance, whether it is done under the light of one's faith or the environment; essentially both underline indistinguishable factors. This event will depict such significant factors and characteristics required for parenting, in the 21st century.

You are cordially invited to attend this event as your presence will be a great value to us.

Venue

Saturday, 4th of May 2019
Balla Balla Community Centre
